Professional Summary

Computer Engineering student at R. C. Patel Institute of Technology, Shirpur, graduating in 2027. Strong interest in software engineering and Java development, with knowledge of Java, SQL, REST APIs, backend development, and full-stack web technologies. Experienced in developing academic projects using Spring Boot, Node.js, Express.js, Angular, and relational databases. Seeking a Software Engineer Intern role to apply programming, debugging, and problem-solving skills while contributing to real-world software applications.

Technical Skills

Programming Languages: Java, JavaScript, SQL

Backend Technologies: Spring Boot, Spring Data JPA, Hibernate, Node.js, Express.js, REST APIs

Frontend Technologies: React.js, Angular, HTML, CSS, Bootstrap, Tailwind CSS

Databases: MySQL, PostgreSQL, Supabase

Tools: Git, GitHub, Maven, Postman, VS Code, Eclipse

Core Concepts: OOP, DBMS, API Development, Authentication

Education

R. C. Patel Institute of Technology, Shirpur — 2024–2027

B.Tech. in Computer Engineering — CGPA: 6.55

Higher Secondary Certificate (HSC) — 86.16%

Secondary School Certificate (SSC) — 86.20%

Technical Training

Java Full Stack Developer Trainee — *Capgemini Sponsored Program*

- Gained practical knowledge of Core Java, Advanced Java, Spring Boot, Spring Data JPA, Hibernate, and MySQL.
- Practiced REST API development and worked with Git, Maven, Postman, HTML, CSS, JavaScript, and Angular.

Projects

Smart Campus Portal — GitHub

- Developed an academic management portal for students and faculty, covering courses, attendance, library, hostel, examinations, and fee management.
- Built REST APIs using Node.js and Express.js and integrated PostgreSQL through Supabase.
- Implemented role-based authentication, library search, hostel allocation, fee tracking, and receipt generation.
- **Technologies:** Node.js, Express.js, PostgreSQL, Supabase, JavaScript, Bootstrap 5.

Disaster Management and Emergency Response Portal — GitHub

- Developed a disaster management platform using Spring Boot microservices and Angular.
- Implemented JWT authentication, role-based access control, incident mapping, responder management, and dashboards.
- Integrated STOMP WebSockets for real-time alerts and Leaflet and Chart.js for visualization.
- **Technologies:** Java, Spring Boot, Angular, MySQL, Spring Security, JWT, WebSockets.

Bookstore Management System — GitHub

- Developed backend functionality for a bookstore application to manage book-related data.
- Designed REST API endpoints to support bookstore operations and backend integration.

Certifications

- **Full Stack Java with Angular** – Certificate Program, Symbiosis Digital Academy, Symbiosis Skills & Professional University, Pune. *15 June 2026 – 15 September 2026.*
- **NPTEL – Programming in Java:** 78% (Elite + Silver).
- **NPTEL – Database Management Systems:** 50%.
- **German Language Certification** – Institute Level.

Achievements

- Qualified for the third round of the Akatsuki Coding Club Hackathon.
- Completed a four-day React Cohort Frontend Development Workshop.
- Completed the November 3.0 Backend Development Workshop.
